### **Tour du Mont Blanc in 10 days**

One of the 'Classic Hikes of the World' is the circuit around Mont Blanc, western Europe's highest mountain. In circling this great mountain, we cross from one country to another—on foot! Mont Blanc is an immense, beautiful, glacier-clad massif whose seven valleys radiate out into France, Italy, and Switzerland. As we dip down into a new valley each day, we savor changes in language, landscape, architecture, and cuisine. The mountain views make the journey a photographer's dream, and Cherries provides a wonderfully fun atmosphere along the way. Tour du Mont Blanc is a 'must' among the world's mountain adventures.

### **Haute Route Tour from Verbier to Zermatt in 10 days**

Hiking is the national obsession in Switzerland -- and with the Alps as a playground, it's no wonder! Traversing classic trails from legendary Mont Blanc to the shadow of the jagged Matterhorn, this is a vigorous hike that offers sublime rewards to adventurous trekkers. In addition to expansive views of sparkling glaciers, towering peaks and crystal alpine lakes, we hike among flower covered hills and venture upon charming alpine huts. The faint tinkling of cow bells is our musical score as we explore the region between the two stylish resort villages of Verbier and Zermatt.
